## **TOMATO BASIL NOURISHING WRAP**

In terms of healthy eating, the tomato is often praised for being a nutrient powerhouse. Guests at **Spa Gaucin** at St. Regis Monarch Beach (Dana Point, CA) can now treat their skin to the same nutrients thanks to the Tomato Basil Nourishing Wrap (\$175, 60 minutes). Relying on products from Innovative Body Science, this treatment, ideal for pre- or post-sun exposure, begins with a full-body application of Tomato Basil Body Masque before the guest is cocooned in plastic sheets and covered with a hot, wet towel. After 20 minutes, the individual is instructed to shower off the product before returning to the table for a hydrating application of Olive Leaf Body Lotion. Spa-goers can now reap the skin-saving benefits of the tomato that fans of the annual La Tomatina Tomato Fight in Bunyol, Spain, have been privy to all along.
